I respectfully urge you, the FCC, to reject the NAB's petition 04-160. I pay for the services of XM Radio because my job requires me to be on the road on a daily basis. I need to know the weather conditions and traffic conditions for my safety. I also enjoy the variety of music and news stations while on the road for hours at a time. Regular stations do not always come in clearly in some areas. Satelite radio allows me to enjoy my choice anywhere, any time.
